### **DETAILED ACTION**

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

#### ***Claim Rejections - 35 USC § 112***

Claims 2,5,7,10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The language permits of ambiguity; claim 2 is on plates, spheres& other shapes – are these the granules or powder of claim 1, or what? Claim 5 is the same or different, but claim 1 has the semiochemical on an adsorbent support is this the same in claim 1 as the spore carrier? If so, claim 5 is unclear. Claim 7 is confusing, regarding “being”. Claim 10 is questionable as to polymers of algae,, and plants.

#### ***Claim Rejections - 35 USC § 103***

Claims 1,2,4,5,7 –9,14,15,17-23 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Gunnaer & Bradely..

#### ***Response to Arguments***

Applicant's arguments filed 1/11/07 have been fully considered but they are not persuasive. Although the original 35 USC 112 2<sup>nd</sup> # rejections are withdrawn in view of applicant's amendments& explanations, the new language has generated lack of clarity & some degree of ambiguousness.

Art Unit: 1615

As to the obviousness rejection, it is maintained, as the composition as is instantly claimed is evident, given the prior art of record, regardless of applicant's argument that Gunner's spores are not long lived, & Bradley is for spraying. Applicant

Acknowledges the use of oil is widely disclosed, as examiner cites @ Bradley; but Bradley also applies the oil protected spores to baits & traps with pheromone & other attractant lures(col. 5, line 34, 35, col. 6 bottom-line 13, col. 7). & finds the protected spores more effective than those not in oil, as at example 4.

Thus, one of ordinary skill in the art, reading Bradley, would be motivated to use this form, regardless of whether in culture or as a delivery form, in order to obtain a more effective product, as argued to be surprising to applicant's.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
